

Setup Osiris 2, Trident & Poseidon with iPhone

Videos:

Install [Osiris 2](#), Trident, or Poseidon [Setup App](#)

1  Install unit on pipe

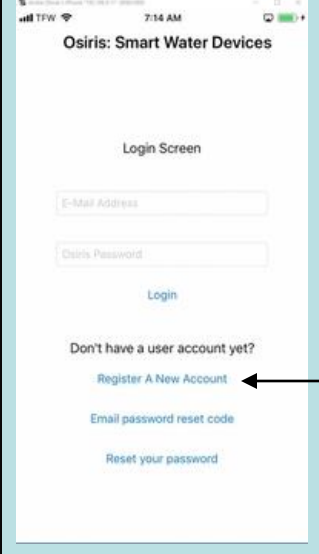

Install App on your phone from [iTunes](#) Open App

2 

Touch Start App

The screen shows the Osiris Smart Water Devices app interface. At the top, it says "Osiris Smart Water Devices". Below that is a large blue button labeled "Start App (including Setup WiFi for Osiris 1)". At the bottom, there is a "Setup WiFi (for Osiris 2, Trident, and Poseidon)" section with a Wi-Fi icon.

3 

Touch Register A New Account

The screen shows the "Osiris: Smart Water Devices Login Screen". It has fields for "E-Mail Address" and "Osiris Password", and a "Login" button. Below the login fields, it says "Don't have a user account yet?" and has a link for "Register A New Account". There are also links for "Email password reset code" and "Reset your password".

4 

Your name

Your email

Choose a password

Touch Register

The screen shows the "Osiris: Smart Water Devices Please Register" form. It has fields for "Your first name", "Your last name", "Your E-Mail address", and "Osiris Password". There are "Register" and "Back" buttons at the bottom.

5 

Touch Settings

The screen shows the Osiris797 (Osiris 797) dashboard for March 03. It displays temperature (0° / 0° and 0° C) and Humidity (0%). Below that, it shows "Status: No Data", "Pipe Temperature: No Data", "Smart Valve: No Data Available", "Alarm Status: No Data", and "Forecast: No Data". At the bottom, there is a "No data available" button and a navigation bar with icons for Status, History, Mute, Goals, and Settings.

6 

Touch Register a New Unit

The screen shows the "Settings" menu. It has options for "Assign Contacts to Units", "View a Unit / Set a Default Unit", "Register a New Unit", "Connect Unit to My WiFi", "Calibrate Water Flow", "View Diagnostics", "Setup Cloud APIs", and "Set Unit Alarms". There is a navigation bar at the bottom with icons for Status, History, Mute, Goals, and Settings.
